Sponsor or Funding Agency:

Award Number (if applicable):

Part V. Terms and Conditions

The review performed by the designated IACUC/IBC (A) will meet the animal welfare and/or biosafety requirements of Institution B's OLAW-approved AWA and/or NIH-approved registration. The designated IACUC/IBC at the collaborating institution (A) will comply with procedures for reporting the following to the University of Hawai'i Animal Welfare and Biosafety Program representatives at Institution B.

- Notification of approval by the IACUC/IBC (A), along with relevant dates and conditions.
- Maintain a current, approved IACUC/IBC protocol.
- Approval of amendments to animal and/or biological materials use activities
- Approval of continuing review of research
- Review and reporting of unexpected events or incidents, significant matters related to animal welfare and/or biosafety of the protocol/project.
- Other findings and actions of Institution A that affect the animal/biological work.
- Minutes of IACUC/IBC meetings will be made available to Institution B upon request

Failure to comply with the UH ORC Policy for Collaborating (Research, Testing and Instruction) will effectively void and terminate the Authorization Ceding Agreement between UH and the collaborating institution or organization.
