## University of Hawai'i at Manoa Biohazardous Sharps/Waste Disposal - Quick Reference Guide

DIOLOGICAL CONTANUATED METAL CHARDS		
BIOLOGICAL CONTAMINATED METAL SHARPS:		RED SHARPS CONTAINERS → Strap lid with filament
Hypodermic Needles with attached: - Syringes (Barrels & Plungers)		and autoclave tape → Autoclave → CALL BIOSAFETY  PROGRAM FOR PICKUP at 956-8009 or email to
, , , ,		biosafe@hawaii.edu
- Tubing, (butterfly, etc.) Blades (Scalpels, Razors, Lancets).		biosaie@fidwall.euu
CHEMICAL CONTAMINATED METAL SHARPS:		Rinse thoroughly & collect rinsate → Rinsate → See
Needles with attached:		HMMP* guidelines for disposal
- Syringes (Barrels & Plungers)		Thinkii guideiiries ioi disposai
- Tubing, etc.		Deposit metal sharps into Non Red sharps container,
Blades (Scalpels, Razors, Lancets).		CALL FOR PICKUP at 956-8009 or email to
Bladdo (Oddipolo, Mazoro, Zariodio).		biosafe@hawaii.edu
	TEGORIES	
		Non-vendor (not red) sharps container (i.e., Double
	BIOLOGICAL	bag lined corrugated box or capable plastic container: i.e.
PIPETS	BIOLOGICAL	plastic detergent bottles → Autoclave → Box →
(plastic or glass)		Dumpster.
		Rinse thoroughly & collect rinsate → Rinsate → See
PASTEUR PIPETS		HMMP guidelines for disposal
(plastic or glass)		
	CHEMICAL	Deposit sharps into Non-vendor (not red) sharps
PLASTIC PIPET TIPS		container (i.e. Double bag lined corrugated box or
		capable plastic container: i.e. plastic detergent bottles) ->
		Box → Dumpster
PIOLIA ZA PROJUCI I JOUING WITHOUT HAZA PROJUC		
BIOHAZARDOUS LIQUIDS WITHOUT HAZARDOUS		Autoclave → Screen particulate → Treat particulate as
CHEMICALS: - Liquid Tissue Culture Media		SOLID BIOLOGICAL WASTE (see below) → Flush remaining liquid down the drain.
- Animal or Human Blood and Blood elements		remaining liquid down the drain.
- Animal or Human Body Fluids		
BIOHAZARDOUS LIQUIDS WITH HAZARDOUS		Screen particulate (should be rendered sterile from
CHEMICALS:		chemical) → Treat particulate as <b>SOLID BIOLOGICAL</b>
(i.e.: Cycloheximide, Cyanides)		WASTE (see below) → Dumpster
(con systematic)		For liquid disposal, see <b>HMMP</b> guidelines.
SOLID BIOLOGICAL WASTE:		
Petri Dishes / Tissue Culture Flasks, Gloves		Use RED autoclave bag → Autoclave → Delete/obliterate universal biohazard symbol → Place in dark/opaque
All other items contaminated with biohazardous		plastic trash bag → Dumpster.
materials:		piastic trasti bay 7 Duttipster.
- Contaminated Paper Towels, Kim Wipes, Bench		
Paper, etc.		
CHEMICALLY PRESERVED TISSUE SPECIMENS:		Separate tissue from liquid→Dry and wrap tissue →
(Animal and Plant)		plastic trash bag → Dumpster.
, amina and riany		Liquid preservative → Call HMMP 956-3198 about
		disposal of liquid.
BIOHAZARDOUS-CHEMOTOXIC MIXED WASTE:		Call Biological Safety Program 956-8009.for assistance.
(Neoplastic, Genotoxic, Pharmaceutical Experimental		2 2 3 2 3 2 3 2 3 2 3 2 3 2 3 2 3 2 3 2
Drugs) Not exceeding 3% of total volume		
BIOHAZARDOUS-RADIOACTIVE MIXED WASTE:		Contact Radiation Safety Program at 956-8591 for
		assistance.
